

Candy Firework Snacks

Fireworks

- Empty toilet paper rolls
- Stiff cardboard
- Clear tape
- Gift wrap
- Candy coated milk chocolate pieces, or candy of choice
- Sparkly cupcake picks
- Curly ribbon

Trace one end of each toilet paper roll onto stiff cardboard. Cut out circles. Tape a circle to one end of each toilet paper roll. Cut gift wrap into 7 inch squares. Gift wrap needs to cover length of each toilet paper roll, bottom of stiff cardboard, and decorative top. Leave 1 1/2 inches of excess gift wrap at open end of toilet paper roll. Tape sides and bottom of paper to secure.

Fill gift wrapped toilet paper rolls with candy. Gather excess gift wrap over top of candy. Insert cupcake picks and tie with curly ribbon. Curl the ends of the ribbon. Repeat for additional fireworks.

Note: For smaller fireworks, cut toilet paper rolls in half prior to cutting stiff cardboard. Reduce length of gift wrap when making smaller fireworks. Substitute candy coated milk chocolate pieces with any patriotic candy that fits inside the toilet paper roll.
